nsylvania Second in Spirited Race for Intercollegiate Championship at Morris Park -D. W. Franchot First After

Plucky Struggle With A. C. Bowen. Yale won the Intercollegiate cross-country championship at Morris Park yesterday, and the victory of the dark blue athletes was the first since the inception of the meet. The total score of the New Hayen runners was 22: the University of Pennsylvania was second with 31; Cornell was third with 35, Princeton was fourth with 67; as the full Columbia team did not finish the college earned no score. The points were reckoned as usual in team events. Each college was allowed to start seven men, but only the first four on each team counted for the championship. Then the college is credited with the numbers of the places in which its representatives finished. Yale eent the full quota of seven men to the mark and so did Cornell; Princeton and Penn-sylvania five each and Columbia only four.

There was the customary gathering of old-time pedestrians, athletes and a fair share of college partisans to cheer their respective forwards. Columbia lad the this department and if the wearers of the blue and white had figured at all prominent at the finish the woods around would have recchoed with Columbia yells. RULES FOR CUP CONTEST. Mr. E. D. Morgan Suggests Reduction Draught in Future Racers.

Special Cable Despatch to THE SUN.

LONDON, Nov. 80.—Mr. E. D. Morgan and Mr. Robert Bacon, partner of Mr. Pierpont Morgan, intend to occupy Mr. Morgan's house at Melton Mowbray

for the hunting season. Mr. E. D. Morgan has recently initiated suggestions for alterations in the rules relating to the dimensions of racers for the America's Cup. The chief of these is a proposal to reduce the draught to sixteen feet and thus make yachts available as pleasure craft after the races by enabling them to navigate coasts, harbors, &c., instead of being practically useless, as they are now in consequence of the big draft confining them to deep waterways and channels. Sir Thomas Lipton has been approached in the matter of these sugges-tions and has approved of them, but did not consider it his business to make any

formal proposals for alterations. It may be taken for granted that the story of presenting the Prince of Wales with a subscription yacht to race for the America's Cup is imaginary. It is highly improbable that the Earl of Dunraven and Sir Thomas Lipton would become asso-Sir Thomas Lipton would become account of the Cup races. It is also improbable that Col. would embark on that enterprise. His idea apparently is to build yachts for finance when one of the home athletes executed the least kind of a spurt his effort would be the signal for some vigorous whooping. Even the Columbia rooters were so anxious that the team should make a good showing that several ran around the course encouraging and cheering to the end. The course was the stiffest sort of a proposition. Each of the five laps was a mile and a quarter in circumference, making the entire journey about six miles and a quarter. In each circuit there were nine jumps and three of these were wicked enough to change the flight of a wild bird on the wing. LAST DAY OF BENNINGS RACES

CARBUNCLE, ODDS-ON FAVORITE, WINS THE MAXIMUM.

Jockey Jones Thrown at Start of First Event and May Be Seriously Injured -Much Unpleasant Talk About the Steeplechase -Three Favorites Win.

WASHINGTON, Nov. 30, - The Jockey Club's season of racing for the year and the fall meeting of the Washington Jockey Club at the Bennings track ended this afternoon. The weather was perfect and the attend-

ance unusually large. The sport was good, but only three favorites were winners and one was an odds-on choice. That was Car-buncle, who captured the Maximum, the race for three-year-olds and upward at three miles. The principal betting was on Raffaello. Surmise and Dick Furber, as to which would be second. Ringleader made the pace and for the first mile led by thirty lengths with the other four horses well bunched. All this time Carbuncle looked as if he would pull Redfern from the saddle. The second mile saw the field strong out, Ringleader still making the pace fifteen lengths before Carbuncle, who was the same distance before Dick Furber, with Surmise and Ruf

faello close up. Passing the stand at the end of the second mile Carbuncle went closer to Ringleader and entering the back stretch he went to the front without an effort. Shea then made his move on Surmise, who had been last, and he moved up so quickly that he had caught Carbuncle on the far turn. For the next quarter of a mile the pair raced close together, and then the effort on the backstretch told on Surmise and he began to stop, allowing Carbuncle to draw out and win easily by two lengths. Raffaello was

beaten off, as he went lame in the race.

Horses which had not won a race this year were eligible for the opening event at five and a half furlongs. A number were figured to have a chance, and they were well played, with Adelaide Prince the favorite and Delmarch second choice. Elizabeth Moan went to the front, and for half a mile she had a lead of three lengths. Then she tired, giving the lead to Delmarrh, who was promptly challenged by Adelaide Prince, and at the furlong pole she looked all over the winner. But she swerved badly and Delmarrh was But she swerved badly and Deimarrh was able to retain his lead to the finish and beat Adelaide Prince a length. At the start the horses were so close together that in the scramble for positions Aminte was thrown and Carder was squeezed out so that Walker had to pull him up. Jones, on Aminte, had a bad fail and he is thought to be seriously injured. He was to have ridden Miss Patsy in the second race, and she had to be withdrawn.

a bad fail and he is thought to be seriously injured. He was to have ridden Miss Patsy in the second race, and she had to be withdrawn.

Fifteen maiden two-year-olds took part in the second race. Cornwall was the favorite with lituralizate a strong second choice. Lemowne led for a furiong when Cornwall got his head in front, and by the hardest kind of riding Martin kept him there to the flaish. He beat Hot out a length. The third event was a steeplechase over a two and a half mile course, and five ran, but only two actually fluished, and there was much unpleasant talk about it. Connover and Jim McGibben ruled equal favorites at even money for a long time in the bettling, but Connover closed at 11 to 10, with Jim McGibben at 7 to 5. Corrillo received a play, and his odds fell from 12 to 1 to 3 to 1. Connover was returned an easy winner. At the very first jump Jim McGibben, Very Light and Joe Leiter ran out, and from the way the boys acted it looked as if they thought it no start. They pulled up, and by the time they renlized the true state of a fairs they were out of the race. Jim McGibben was sent over the course so that he finished within the time limit and received third money. As Connover had only Corrillo to beat he galloped along in front the entire lourney.

The fifth race was a highweight handicap for all ages, at seven furlongs. Of the thirteen that ran the two-year-old Flora Pomona was the most in favor Pigeon Post, an 8 to 1 chance, had the speed of the party. Mitchell sent him to the front in the opening sixteenth and making all his own running Pigeon Post finished a length before Flora Pomona, after a drive through the stretch. Fifteen entries had oeen received for the closing event, but only seven remained to run for the money. Astor and Shoreham went to 3 to 1, while the odds were cut on Lee King than Henderson did on Astor, and Lee King to the 4 to at, and with a lead of two lengths over As or Lee King led to the last furlong, but Martin rode a stronger fluish on Lee King than Henderson did on As
